

Mini Project – EduHereApp

AIM:

To Create a java swing project on computer education with verification and registration with database connection.

Database.java (used to make connection to MYSQL database with mysql_connector_9.0.1.jar file)

Code:

```
import java.sql.Connection;
import java.sql.DriverManager;
import java.sql.SQLException;

public class Database {
    private static final String URL =
"jdbc:mysql://localhost:3306/course_registration?useSSL=false&
allowPublicKeyRetrieval=true";
    private static final String USER = "root";
    private static final String PASSWORD = "1234";

    public static Connection getConnection() throws
SQLException {
        try {
            Class.forName("com.mysql.cj.jdbc.Driver");
        } catch (ClassNotFoundException e) {
            System.out.println("MySQL JDBC Driver not
found.");
            e.printStackTrace();
            return null;
        }
        return DriverManager.getConnection(URL, USER,
PASSWORD);
    }
}
```

MainApp.java

Code:

```
import javax.swing.*;
import java.awt.*;

public class MainApp extends JFrame {
    private final CardLayout cardLayout;
    private final JPanel mainPanel;

    public MainApp() {
        setTitle("Welcome to A2J Education");
        setSize(600, 400);
        setDefaultCloseOperation(EXIT_ON_CLOSE);
        setLocationRelativeTo(null);

        cardLayout = new CardLayout();
        mainPanel = new JPanel(cardLayout);

        mainPanel.add(new EntryPage(mainPanel, cardLayout),
"EntryPage");
        mainPanel.add(new RegistrationPage(mainPanel,
cardLayout), "Register");
        mainPanel.add(new VerificationPage(mainPanel,
cardLayout), "Verify");

        add(mainPanel);
        cardLayout.show(mainPanel, "EntryPage");
    }
}
```

```

        setExtendedState(JFrame.MAXIMIZED_BOTH); // Make the
window full screen

    }

    public static void main(String[] args) {
        SwingUtilities.invokeLater(() -> {
            MainApp app = new MainApp();
            app.setVisible(true);
        });
    }
}

```

EntryPage.java

Code:

```

import javax.swing.*;
import javax.swing.border.LineBorder;
import java.awt.*;

public class EntryPage extends JPanel {
    @SuppressWarnings("empty-statement")
    public EntryPage(JPanel mainPanel, CardLayout cardLayout)
    {
        // Use GridBagLayout for centering
        setLayout(new GridBagLayout());

        GridBagConstraints gbc = new GridBagConstraints();

        gbc.insets = new Insets(10, 10, 10, 10); // Add
padding between components
    }
}

```

```

        // Title label with border

        JLabel titleLabel = new JLabel("Welcome to A2J
Education");

        titleLabel.setFont(new Font("Showcard Gothic",
Font.BOLD, 50)); // Larger font for high resolution

        titleLabel.setForeground(Color.GREEN);

        // Add border around the title

        // Yellow border with thickness of 5

        gbc.gridx = 0;
        gbc.gridy = 0;
        gbc.anchor = GridBagConstraints.CENTER;
        add(titleLabel, gbc);

        // Join button

        JButton joinButton = new JButton("Join");

        joinButton.setFont(new Font("Calibri", Font.BOLD,
20));

        joinButton.setPreferredSize(new Dimension(150, 50));
// Medium size button

        gbc.gridx = 0;
        gbc.gridy = 1;
        gbc.anchor = GridBagConstraints.CENTER;
        add(joinButton, gbc);

        // Verify button

        JButton verifyButton = new JButton("Verify");

        verifyButton.setFont(new Font("Calibri", Font.BOLD,
20));

        verifyButton.setPreferredSize(new Dimension(150, 50));
// Medium size button

        gbc.gridx = 0;

```

```

        gbc.gridy = 2;
        gbc.anchor = GridBagConstraints.CENTER;
        add(verifyButton, gbc);

        // Button actions
        joinButton.addActionListener(e ->
cardLayout.show(mainPanel, "Register"));

        verifyButton.addActionListener(e ->
cardLayout.show(mainPanel, "Verify"));
    }

    @Override
    protected void paintComponent(Graphics g) {
        super.paintComponent(g);
        // Draw background image
        Image bgImage = new
ImageIcon(getClass().getResource("e.png")).getImage();
        g.drawImage(bgImage, 0, 0, getWidth(), getHeight(),
this);
    }
}

```

RegistrationPage.java

Code:

```

import javax.swing.*;
import java.awt.*;
import java.sql.Connection;
import java.sql.PreparedStatement;
import java.sql.SQLException;

```

```

public class RegistrationPage extends JPanel {

    public RegistrationPage(JPanel mainPanel, CardLayout
cardLayout) {

        setLayout(new GridBagLayout());

this);

}

}

```

VerificationPage.java

Code:

```

import javax.swing.*;
import java.awt.*;
import java.awt.event.ActionListener;

public class TravelPackagesPage extends JPanel {
    public TravelPackagesPage(ActionListener
navigationListener) {
        setLayout(new BorderLayout());
        setBackground(StyleUtils.BACKGROUND_COLOR);

        // Title
        JLabel title =
StyleUtils.createTitleLabel("<html><h1>Travel

```

```

Packages</h1><p>Explore our exclusive packages.</p></html>");
    add(title, BorderLayout.NORTH);

    // Travel Package Information
    JPanel packagesPanel = new JPanel(new GridLayout(3, 1,
10, 10));

    packagesPanel.setBackground(StyleUtils.BACKGROUND_COLOR);
    String[] packages = {"Paris Getaway", "Swiss Alps
Adventure", "Goa Retreat"};
    String[] details = {"5 Days - ₹102000", "7 Days -
₹152000", "4 Days - ₹76000"};

    for (int i = 0; i < packages.length; i++) {
        JPanel packagePanel = new JPanel(new
BorderLayout());
        packagePanel.setBackground(Color.WHITE);

        packagePanel.setBorder(BorderFactory.createLineBorder(StyleUti
ls.SECONDARY_COLOR));

        JLabel packageLabel = new JLabel("<html><center>"
+ packages[i] + "<br>" + details[i] + "</center></html>",
JLabel.CENTER);
        packageLabel.setFont(StyleUtils.SUBTITLE_FONT);
        packageLabel.setForeground(StyleUtils.TEXT_COLOR);

        JButton btnBook =
StyleUtils.createStyledButton("Book Now",
StyleUtils.SECONDARY_COLOR);
        btnBook.setActionCommand("BookingForm"); // Set
the ActionCommand to open BookingFormPage
        btnBook.addActionListener(navigationListener);

        packagePanel.add(packageLabel,
BorderLayout.CENTER);
        packagePanel.add(btnBook, BorderLayout.SOUTH);
        packagesPanel.add(packagePanel);
    }

    add(packagesPanel, BorderLayout.CENTER);

    // Back Button
    JButton btnBack = StyleUtils.createStyledButton("Back
to Home", StyleUtils.PRIMARY_COLOR);
    btnBack.setActionCommand("Home");
    btnBack.addActionListener(navigationListener);

```

```
        JPanel backPanel = new JPanel(new
FlowLayout(FlowLayout.CENTER));
        backPanel.setBackground(StyleUtils.BACKGROUND_COLOR);

        add(backPanel, BorderLayout.SOUTH);
    }
}
```

SQL:

```
CREATE DATABASE IF NOT EXISTS course_registration;
USE course_registration;
```

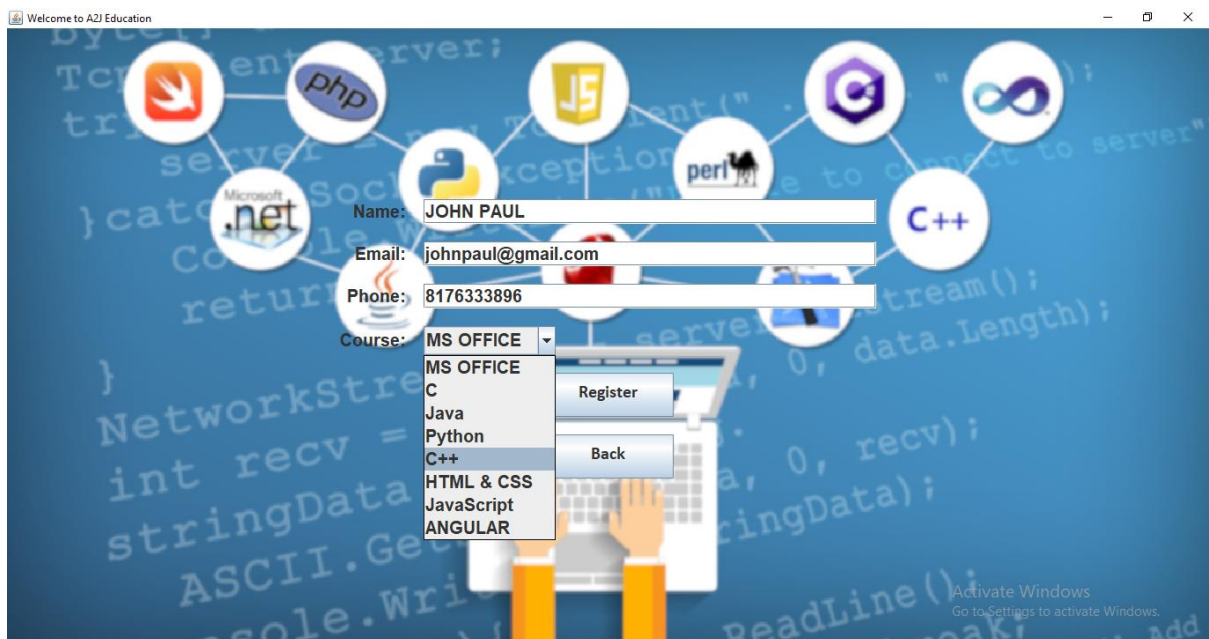

```
CREATE TABLE IF NOT EXISTS users (
    id INT AUTO_INCREMENT PRIMARY KEY,
    name VARCHAR(100),
    email VARCHAR(100),
    phone VARCHAR(15) UNIQUE,
    course VARCHAR(50)
);
```

OUTPUT:

Entry Page

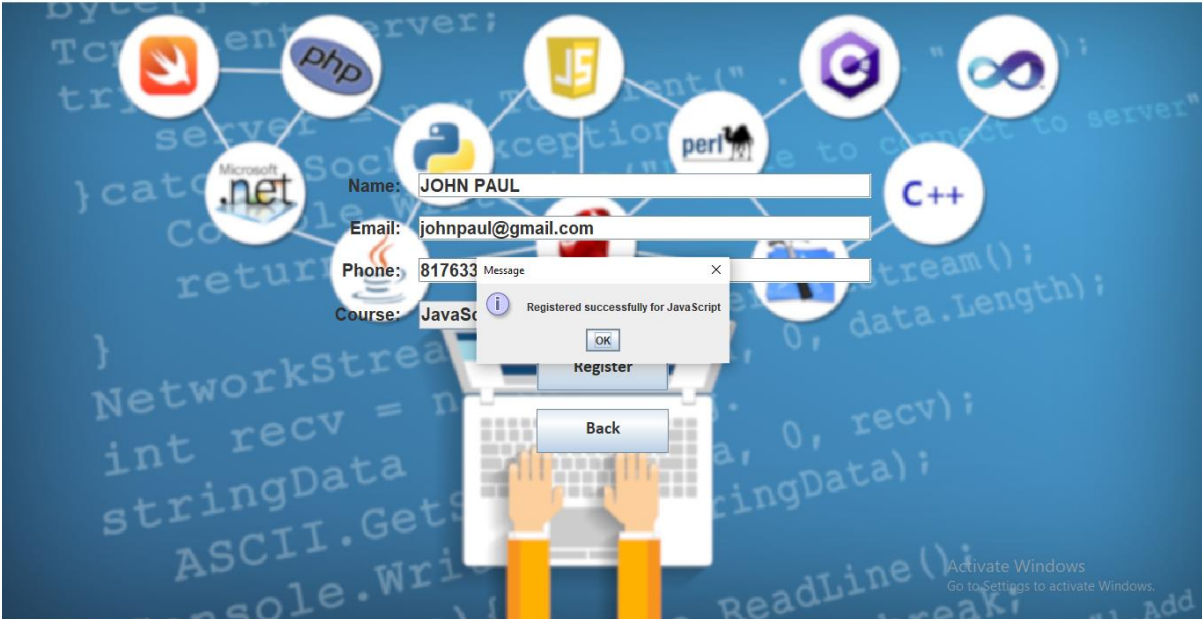

Join Page

Registration

Welcome to A2J Education

The registration form is displayed on a blue background with a network of programming language logos (Java, PHP, JavaScript, Python, Perl, C++, .NET) and snippets of code. The form fields are: Name: JOHN PAUL, Email: johnpaul@gmail.com, Phone: 817633, and Course: JavaScript. A success message box says "Registered successfully for JavaScript". Below the form are "Register" and "Back" buttons. An "Activate Windows" watermark is in the bottom right.

Name: JOHN PAUL

Email: johnpaul@gmail.com

Phone: 817633

Course: JavaScript

Registered successfully for JavaScript

Back

Activate Windows
Go to Settings to activate Windows.

Verification Page

Welcome to A2J Education

The verification page shows the phone number 8176333896 in a text field. Below the field are "Verify" and "Back" buttons. The background is the same as the registration page, with programming logos and code snippets. An "Activate Windows" watermark is in the bottom right.

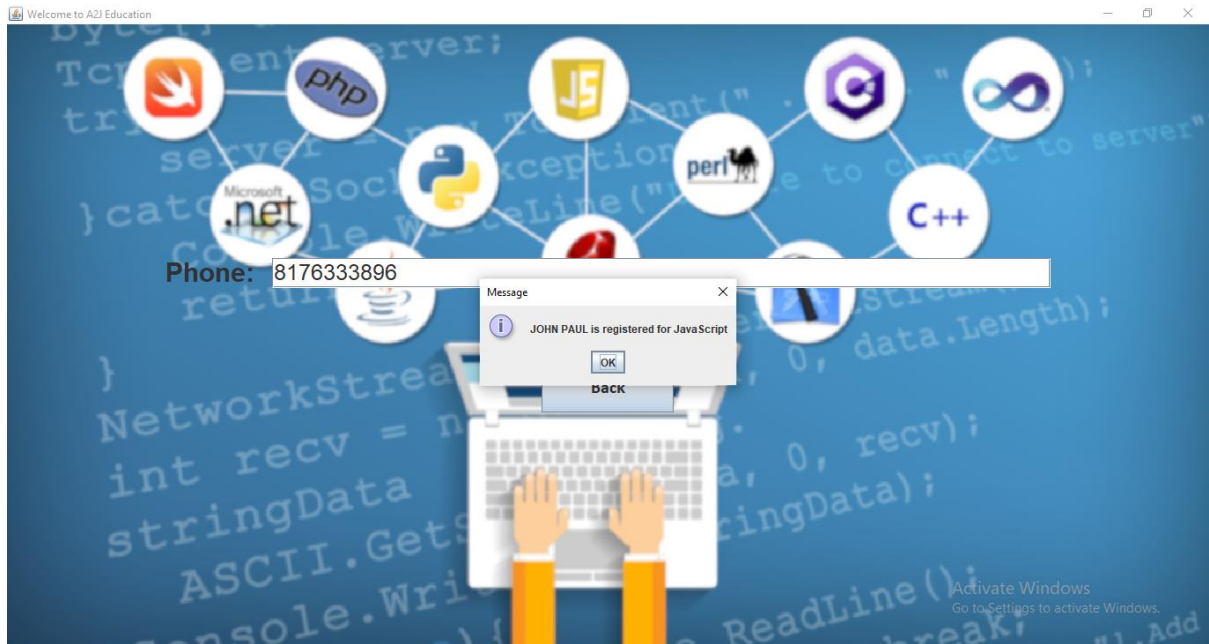

Phone: 8176333896
